Disadvantaged Business Utilization, National Aeronautics and Space Administration, Room 9K70, 300 E Street, SW, Washington, DC 20546, (202) 358–2088.

SUPPLEMENTARY INFORMATION: The meeting will be open to the public up to the seating capacity of the room. The agenda for the meeting is as follows:

January 29, 1998

- -Call to Order
- -Reading of Minutes
- —Ames Small Disadvantaged Business (SDB) Program
- —Report of Chair
- —Public Comment
- —Subpanel Reports
- —New Business
- —Adjourn

January 30, 1998

- —Report on NASA FY 1997 SDB Accomplishments
- —Status of MBRAC Recommendations
- -Special Issues
- -Report of Chair
- —Adjourn

It is imperative that the meeting be held on these dates to accommodate the scheduling priorities of the key participants. Visitors will be requested to sign a visitor's register.

Dated: January 6, 1998.

Alan M. Ladwig,

Advisory Committee Management Officer, National Aeronautics and Space Administration.

NATIONAL ARCHIVES AND RECORDS ADMINISTRATION

Electronic Records Work Group; Notice of Meeting

AGENCY: National Archives and Records Administration (NARA).

ACTION: Notice of meeting.

SUMMARY: NARA will hold a public meeting of the Electronic Records Work Group on January 29, 1998, to obtain further comments on issues relating to NARA's General Records Schedule (GRS) 20 for Electronic Records. The Electronic Records Work Group, with members drawn from NARA and other Federal agencies, has been charged with identifying workable alternatives to the disposition practices currently authorized under GRS 20. Additional information about the Electronic Records Work Group is available on NARA's GRS 20 Internet Web page at http://www.nara.gov/records/grs20/>.

DATES: The public meeting will be held on January 29, 1998, from 9—11 a.m. Persons who wish to provide formal comments at the meeting should notify NARA by telephone (301–713–6677, ext. 266) or fax (301–713–6850) or email (grs20@arch2.nara.gov) no later than noon January 27, 1998.

ADDRESSES: The public meeting will be held in the National Archives Theater, National Archives Building, 7th and Pennsylvania Ave., NW, Washington, DC.

FOR FURTHER INFORMATION CONTACT: Lisa Haralampus at 301–713–6677, extension 266.

SUPPLEMENTARY INFORMATION: In the December 24, 1997, Federal Register (62 FR 67098) NARA published a list of preliminary issues to be addressed by the Electronic Records Work Group and asked for public comment by January 9, 1998. At the public meeting on January 29, 1998, NARA will seek additional comments on these issues and suggestions for other issues and alternatives to the current GRS 20 that the Work Group should consider.

Persons who wish to provide formal comments or remarks to the Work Group may be limited to 10 minutes each to ensure that all speakers are heard. Speakers will be notified prior to the meeting if they will have more than 10 minutes to present their comments. If time permits, there also will be an opportunity for informal comment after the formal comments.

Comments will be considered the views of the individual presenting them unless that person identifies the comments as the views of an agency or organization.

Following the public meeting, the Electronic Records Work Group will meet in a working session that is not open to the public. Summaries of the public meeting and the working session will be posted on NARA's GRS 20 Internet Web page and available in paper form from the contact person named in this notice.

Dated: January 9, 1998.

John W. Carlin,

Archivist of the United States.

BILLING CODE 7515–01–P

NUCLEAR REGULATORY COMMISSION

[Docket Nos. STN 50-454, STN 50-455, STN 50-456 and STN 50-457]

Commonwealth Edison Company; Byron Station, Units 1 and 2, and Braidwood Station, Units 1 and 2, Environmental Assessment and Finding of No Significant Impact

The U.S. Nuclear Regulatory Commission (the Commission) is considering issuance of an exemption from certain requirements of its regulations to Facility Operating License Nos. NPF–37, NPF–66, NPF–72 and NPF–77, issued to Commonwealth Edison Company (the licensee), for operation of Byron Station, Units 1 and 2, and Braidwood Station, Units 1 and 2, located in Ogle County and Will County, Illinois, respectively.

Environmental Assessment

Identification of the Proposed Action

The proposed action would permit the licensee to use the 1996 Addenda to the American Society of Mechanical Engineers (ASME) Boiler and Pressure Vessel Code (Code), Section XI, Appendix G, to determine the reactor vessel pressure-temperature (P–T) limits and the low-temperature overpressure protection (LTOP) system setpoints. By application dated April 3, 1997, as supplemented by letter dated June 19, 1997, the licensee requested an exemption from certain requirements of 10 CFR part 50.60, "Acceptance Criteria for Fracture Prevention Measures for Lightwater Nuclear Power Reactors for Normal Operation." The exemption would allow application of an alternate methodology to determine the P-T limits and LTOP system setpoints for Byron, Units 1 and 2, and Braidwood, Units 1 and 2. The proposed alternate methodology is consistent with guidelines developed by the ASME Working Group on Operating Plant Criteria to define pressure limits during LTOP events that avoid certain unnecessary operational restrictions, provide adequate margins against failure of the reactor pressure vessel, and reduce the potential for unnecessary activation of pressure relieving devices used for LTOP. These guidelines have been incorporated into the 1996 Addenda to the ASME Code, Section XI, Appendix G. However, 10 CFR 50.55a, "Codes and Standards," has not been updated to reflect the acceptability of the 1996 Addenda to the ASME Code.
